Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

A new office action on the merits follows.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 12-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rubel (newly cited).

Allowable Subject Matter

4. Claims 7, 19, and 20 are allowable over the prior art of record.
5. Claims 17 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claim 12 have been considered but are moot in view of the new ground of rejection.

Art Unit: 3617

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Beeley and Courtemanche show other tracks members with angles traction lugs.
